

Inspiring Excellence

We combine these six ideals to create an environment that fosters individual achievement and personal growth. Long after our students graduate, the RKYHS experience continues to inspire excellence.

Each day we inspire our students to:

Connect to Torah

- Our love of Torah, our embrace of Torah values and our deep relationship with the State of Israel permeates every aspect of our education.
- Our students develop rigorous analytical skills in their study of *Tanach* and *Gemara*.
- Our high school is filled with a wide variety of unique and inspirational academic, religious, travel and social programs designed to inspire students to develop a strong Jewish identity.
- Students connect to Torah with innovative programs where they are able to choose what topics they would like to learn about from a selection of engaging, relevant courses that range extensively from “Torah, Science, and Medicine” to *Chassidut*.
- At RKYHS, we believe that there is no mission more crucial than creating the next generation of engaged Jewish leaders who demonstrate and live the values that have distinguished the Jewish people for over three thousand years.

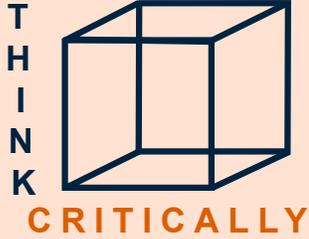

CONNECT
TO TORAH

Academic Excellence

- RKYHS inspires our students to be active, engaged participants in their own learning process.
- Our teachers challenge students to learn and apply diverse, complex sets of knowledge and skills in the classroom and in the real world.
- We provide students with clear learning goals, feedback and dedicated support that help students meet and exceed our extraordinarily high expectations for them.
- We are devoted to the notion that there are many, different, meaningful ways to express what Howard Gardner (1983, 2013) calls our “Multiple Intelligences.”
- By the time they graduate, our students are well-prepared for college, score high on college entrance exams and Advanced Placement tests, and are ready to take their places as thoughtful citizens of the world.

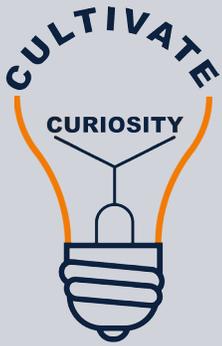

Think Critically

- The ability to think critically is a vital skill both in academics and in the real world.
- RKYHS provides students the tools to think critically by providing a thorough grounding in each subject matter area, which allows our students to meet the challenges of 21st century religious and professional life.
- Teachers collaborate across disciplines to show not only how all of learning is interconnected, but also the value of seeing subjects from multiple perspectives.
- Our SEED (Student Enrichment, Education and Development) program exemplifies the investment our school and teachers make in helping our students explore diverse points of view about the most important and engaging issues of our time. Prominent, inspiring leaders share their life experiences with our students each week.

Cultivate Curiosity

- An RKYHS education inspires a sense of wonder and a love of learning.
- Discovery and creative expression are vital aspects of the educational experience.
- Our teachers are not only experts in their fields; they are also experts in imparting their own passions about their subjects to their students.
- Our state-of-the-art facilities are the perfect setting for students to explore and grow academically.
- Our STEM (Science, Technology, Engineering, and Math) program has made inquiry-based learning a common denominator of our entire educational program.

Explore Opportunities

- Support for personal growth and development is a hallmark of an RKYHS education.
- With enrichment programs, a dedicated staff of guidance counselors, and a Learning Lab for academic support, every facet of a student's high school career is nurtured, supported and enhanced.
- We provide students an incredibly large array of co-curricular experiences that engage the mind, body and spirit of our students. RKYHS cultivates the interests of our students in ways that support their religious, social, and academic growth.
- Although college may seem far away for freshmen, preparation for the admissions process begins on the first day of high school.
- Our college and Israel guidance counselors not only get to know each student personally—they have excellent relationships with the colleges, *yeshivot* and seminaries where our students typically enroll.
- By the time our students graduate, they are ready to succeed in the best colleges, *yeshivot* and seminaries in the world.

Make a Difference

- RKYHS provides students with the opportunity to make a difference in the lives of others.
- RKYHS students focus on the development of strong, meaningful Jewish identities, cultivating concern for the physical, social and emotional development of others.
- We not only encourage our students to be positive members of our broader community and to help those less fortunate, but we also provide students with once-in-a-lifetime experiences to perform acts of *chesed* through unique service learning programs.
- With multiple *chesed* opportunities available through school-wide initiatives, *chugim*, and co-curricular activities, our students develop leadership abilities while working to make the world a better place.
