

Dear First Grader,

Welcome to First Grade! We hope that you are enjoying the summer. We are looking forward to having you in our class this year. First grade is such an exciting year! You will learn so much in both General and Judaic Studies. We are so excited to take this journey with you.

This year we will:

- Learn to read, write, and speak in Hebrew
- Meet Ariot, our class lion and learn about the Parshiot and Chaggim
- Have a SIDDUR PLAY!
- Read a variety of books, gather facts and use graphic organizers
- Learn about ourselves and children that live in China and Mexico
- Explore Math ideas, such as addition, subtraction and place value
- Investigate and explore science concepts
- So much more!

Don't forget to bring your excitement and love of learning with you when you come to school!

We look forward to hearing all about your summer and cannot wait to meet you!

Your First Grade Morot
