

Dear Second Grader,

Can you believe that summer is almost over? We hope that you have been enjoying it. We have been busy getting your new classrooms ready for your arrival. There are many exciting learning adventures waiting for you in second grade. Just come prepared with a smile!

This year you will be receiving a brand new Chumash, reading chapter books, having writing workshops, doing many hands on science experiments, learning Torah in Hebrew, writing paragraphs in Hebrew, reading in Guided Readers, learning about the Chaggim, and working on computers in our very own classroom computer lab! Of course, there are so many other things too, but we do not have room to mention them all!

We cannot wait to greet you and welcome you to our classes.

Second Grade Morot and Teachers

P.S. Hello from Ariyot and Morah Ziva's Kitah Bet!!
