

Dear Fourth Graders,

We cannot wait for Fourth Grade and are looking forward to welcoming you.

Fourth grade promises to be an exciting year. There is so much to learn and a lot of fun to be had too! You will have a chance to use your Hebrew to learn about the Chaggim, Israel and many other topics. We will continue our study of Chumash with the story of Yosef. You will also begin to learn Navi.

In Science, we will investigate electricity. Stay tuned for details about a special project at the end of the unit. We will also learn how to use a microscope and use it to study microorganisms.

In Math, we will explore the worlds of geometry, fractions, decimals, and measurement.

We will meet famous people and “travel” near and far in Reading and Social Studies.

On the first day of school, please bring in the novel that you read this summer. During the first few days of school, there will be activities planned based on this book, so it is important to have it with you. Also make sure to bring back your Siddur and Chumash.

See you soon,

Fourth Grade Morot and Teachers
